**Homegrown drama from Omni Film Productions is the latest addition to pubcaster's primetime slate.**

TORONTO -- Canadians have already warmed to Omni Film's *Ice Pilots NWT* on History Channel, a reality series that also airs on National Geographic U.S. So the Canadian Broadcasting Corp. has ordered a new drama, *Arctic Air*, from indie producer Omni Film Productions, to bow in winter 2012.

Vancouver-based Omni has already produced earlier CBC dramas like *The Odyssey*, *Edgemont* and the *Dragon Boys* mini-series.

*Arctic Air* joins five other new CBC series for the 2011-12 season, including *Mr. D*, starring comic **Gerry Dee**, the *Michael Tuesday and Thursdays* comedy from writer **Bob Martin**, and the sword and sandals epic *Camelot*.
